

### **AVANTI PROGRAMMING INSTRUCTIONS Pre 2015**

Hinge open the light cover on the motor and find the learn button

Press the Learn button **momentarily (do not hold it down)**, the LED should glow solid

Press the button on the remote that you would like to operate the door with for 2 seconds

The LED will extinguish

press the same button on the remote again for 2 seconds

LED will quick flash

Press the same remote button again, the door should now operate.

### **2015 – 2017**

As above with the exception of there being no LED to glow solid and no light cover to hinge open the learn button is located on the rear of the motor.

### **Post 2017**

1. With the door closed - On the control box momentarily press red learn button and LED light will flash. 2. Use the yellow + Button to scroll through to run function on the display screen menu. If 10 seconds elapses before step 3, start again at step 1. 3. Momentarily press button on handset you wish to open / close the door. Led light will flash rapidly indicating successful coding. If you have more than one automatic door, please repeat the same process using selected button on additional handset.

### **SUPERLIFT/CENTURION PROGRAMMING INSTRUCTIONS**

Momentarily press the orange or yellow Code set or Door code button on the rear of the motor

Press the remote control button you wish to use to operate the door for 2 seconds and release.

Press the remote control button again for 2 seconds and release.

Press the same remote button again, the door should operate.

You can view a video on how to program these remotes for avanti at <https://garagedoorrestore.com.au/product/remotes/avanti-remote-control-replacement/>

or Superlift here <https://garagedoorrestore.com.au/product/remotes/centurion-superlift-remote/>

**Sunda Openers** – As per superlift but Code button located on the side of the motor unit
